

Alumni Meet And Interaction

Post event Summary Report

Details

Title: Alumni Meet and Interaction

Date: 27th January 2023

Time: 11:00am to 4:15pm

Venue: E2 seminar hall

Summary

ALIAS' *Alumni Meet and Interaction* event was held on **27th January 2023** at the **E2 Seminar Hall, AUN Campus**. The aim of the event was to provide students with insights into the real world from their alumni. The alumni gathering was attended by more than **120 attendees including 12 alumni and 14 volunteers from the Amity Lucknow campus**; their details are attached in the [next section](#) of the report.

Timeline

The event began with the introduction of alumni to the students and a short film on the growth and journey of ALIAS. Anuvrat Parashar followed this by giving a talk on the topic ***Generic Advice for Would-be Engineers***, focusing on real-life problems faced by students in achieving their true potential.

Anuvrat's talk was followed by Aniket Maithani sharing his experience from his days working as a Site Reliability Engineer. He then compared Devops and SRE. He followed this by talking about the importance of and how to find multiple sources of income and also reminisced about his time working as a Radio Jockey! The final talk was by Vidhi Gupta on ***No-code Careers in Tech***, which provided students with valuable insight into how they can build a career in tech even without programming!

The event then included a networking and refreshments break where *pizzas* and *coke*, sponsored by **Essentia Softserv**, were served to all participants and guests.

The event concluded with a panel **Q&A round**, which was a rich session where questions related to work, learning, college, coding competitions, and interviews were discussed. The alumni provided valuable advice to the students on how to excel in their careers.

As the event concluded, swags were distributed to all participants. Volunteers and guests were also given customised **ALIAS t-shirts**.

Details of Alumni and Volunteers from Lucknow
